## Aftercare Advice- Facial Treatment

Please take a moment to read the aftercare advice below, it is important because the skin and the underlying structures have been stimulated, bringing newer cells to the surface and encouraging cell renewal in the epidermis. Therefore, it's important not to stimulate the skin even more as this could cause redness and irritation.

Avoid applying make up to the area

Do not undertake any other facial skincare treatments within 48 hours of having a facial

Avoid direct heat such as: saunas, hot baths, showering or hot hairdryers

Avoid UV treatments or sun exposure

Do not apply perfume or perfumed products to treated areas within 48 hours of having a facial

Protect your skin in harsh climates, like the cold and hot sun, use products that have an SPF

Always cleanse, tone and moisturise your face: to prevent loss of moisture, protect the skin from make up and to keep the skin soft and supple

Always remove all traces of makeup at the end of the day

Drink plenty of water (recommended 6-8 glasses per day)
